

Next Trade is software for journaling and (soon) routing trades; it does not provide financial advice. Trading carries substantial risk.

Your Daily Game Plan

A focused briefing built from your trading data.

What the Game Plan is

The Game Plan gives you a focused daily briefing based on the patterns in your imported trades — a reminder of what works for you and what to avoid.

Step 1 — Keep your Journal current

1. Import recent trades so the Game Plan reflects how you are trading now.

Step 2 — Read your briefing

1. Open the Game Plan in the app.
2. Review the focus points it highlights for the session ahead.

Step 3 — Trade the plan

1. Use the briefing as a pre-market checklist.
2. Review your Trading Health Score over time to see if discipline is improving.
