Next Trade is software for journaling and (soon) routing trades; it does not provide financial advice. Trading carries substantial risk.

Getting Started with Next Trade

Create your account, start your free trial, and open your dashboard.

What Next Trade is

Next Trade brings together a millisecond Trade Copier and an AI Trade Journal. The AI Trade Journal is live today; the Trade Copier is coming soon. This guide gets you signed up and into the Journal.

Step 1 — Create your account

1. Go to the sign-up page and enter your email and a password.
2. Verify your email address using the link we send you.

Step 2 — Start your 7-day free trial

1. Choose the Journal plan ($40/mo) — it is the plan available to purchase today.
2. Enter a card to begin the 7-day free trial. A card is required to start the trial.
3. You are not charged during the trial. Billing begins automatically only if you do not cancel before day 7.

Step 3 — Open your dashboard

1. After the trial starts you land in the app dashboard.
2. Import your trades (see the Import Trades guide) to populate your analytics.

Cancelling

You can cancel any time from Settings -> Billing, which opens the secure Stripe customer portal. Cancel before day 7 and you will not be charged.
